DETAILED ACTION

Reasons for Allowance

Claims 2-9, 11-16, 22-35, 37-40 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 2, 6 and 13, the closest prior art of record, Butler (Fig. 1) does not disclose the following limitations: one controlled resistive element coupled between the lower output transistor and ground and its functional limitations. Regarding claim 4, the closest prior art of record, Butler (Fig. 1) does not disclose the following limitations: one controlled resistive element coupled between the upper output transistor and a supply voltage and its functional limitations. Regarding claims 7 and 14, the closest prior art of record, Butler (Fig. 1) does not disclose the following limitations: the functional limitations of the one output sense element. Regarding claim 9, the closest prior art of record, Butler (Fig. 1) does not disclose the following limitations: one of a pull down resistor coupled between the output voltage and a negative supply voltage and a pull up resistor coupled between the output voltage and a positive supply voltage. Regarding claim 11, the closest prior art of record, Butler (Fig. 1) does not disclose the following limitations: one controlled resistive element comprising a transistor having an output terminal coupled to an input terminal of the lower output transistor and its functional limitations. Regarding claim 12, the closest prior art of record, Butler (Fig. 1) does not disclose the following limitations: one controlled resistive element comprising a transistor having an output terminal coupled to an input terminal of the upper output transistor and its functional limitations. Regarding claim 16, the closest prior art of record, Butler (Fig. 1) does not

disclose the following limitations: one of a pull down resistor coupled between the output voltage and a negative supply voltage and a pull up resistor coupled between the output voltage and a positive supply voltage. Regarding claims 22, 25, 31 and 39, the closest prior art of record, Takehara (Fig. 2) does not disclose the following limitations: the functional limitations of the output sense element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
